## English

## Greetings from the Mayor of Ota City

Welcome to Ota City. We are truly glad to have you here. Ota City is a city of diverse attractions, with technologically advanced small factories, bustling shopping streets, quiet residential neighborhoods, and green spaces full of nature. Haneda Airport, the gateway to Japan's skies, brings in many international visitors, and the number of foreign residents in the city is continuing to rise. Ota City opened the Ota International Exchange Center "Minto Ota" near Keikyū Kamata Station to serve as a facility for promoting international exchange and multicultural coexistence in an integrated manner. Minto Ota offers multilingual consultation services and Japanese language classes, and holds various events and exhibitions related to the promotion of international exchange and multicultural coexistence. We strive to support the lives of city residents and the city's vitality, promoting city administration that enables everyone to feel at ease and lead fulfilling lives. This booklet contains information that city residents will find useful in their day-to-day lives. We hope that it will serve you well in various everyday situations.

March 2024  
Akimasa Suzuki, Mayor, Ota City

### Ota International Exchange Center "Minto Ota"
